

FLEXIBLE PACKAGING

NUTRITIONAL SUPPLEMENTS

- High Quality Print Capabilities
- Innovative Materials and Concepts
- Clear, Metalized, and Foil Laminations

Flexible Packaging for Your Nutritional Supplement Applications

Label Technology can provide you with outstanding graphics that will give your Nutritional Supplement packaging maximum shelf appeal and visual impact. We inventory a variety of custom paper and film laminations that are ideal for packaging vitamins, nutritional bars, protein supplements, powdered and liquid drink mixes, and many other nutritional supplement products.

Label Technology is an expert in providing the most appropriate and cost-effective packaging film for your product that will perform at optimum speeds on your production line – including stand-up pouches with die-cuts, gussets, and zippers.

We provide a level of quality, customer service, and turn-around time that will meet your most demanding requirements.

Our 200-line screen process printing, special ink formulations, and lacquer and over-lamination choices will insure that your product will exceed your expectations.
